(funds must be used before applicant graduates)

Maximum funding amount: \$4,000

Guidelines

- **Eligibility:** Applicants must be graduate students enrolled full-time in one of the programs offered by the College. Students are limited to one Hixson-Lied Graduate Student Scholarly and Creative Activity Grant at any given time.
- **Scope:** The proposed projects must be of a depth and thoroughness that reach above and beyond the normal expectations of a graduate program of study either in concept or feasibility.
- **Time frame:** Projects must be completed and presented to the public prior to the end of the grant period or before graduation, whichever occurs first.
- **Collaboration:** Applicants are encouraged to explore opportunities to work collaboratively as well as individually. Students seeking collaborative support may collaborate with their peers in other disciplines or sub-disciplines, or with a Lincoln-area business or facility. Grants for collaborative projects will be awarded to applicants who best demonstrate the spirit of collaborative art to support the proposed project.
- **Relation to degree:** Projects may be a portion of, or an extension of, the applicant's degree requirements, provided there is approval from the applicant's supervisory committee chair. In this case, the project may be presented after the funding term has concluded, but before graduation.
- **Off-campus activities:** All awards are contingent upon adherence to University policy governing off-campus activities.

- **Other funding:** Applicants are encouraged to find other funding sources and are expected to fund a portion of the expenses personally.
- **Supervisor:** Projects should be supervised by a UNL faculty member but must be planned and executed by the applicant. Applicants should discuss their applications and budgets with their supervisor prior to submission.
