

How to read this document:

This chart is not a guarantee. It reflects the best guess according to current conditions. Students are strongly advised to identify a variety of possible scenarios as they plot their progress through the degree program. "Even" refers to years ending in an even number (e.g. 2024, 2026, 2028 etc.), "Odd" to years ending in an odd number (e.g. 2025, 2027, 2029 etc.). Specific terms for summer session offerings are variable and dependent on funding in any given year. Refer to MyRed for section numbers, course instructor information, and class meeting times.

| Dance | Division | Course # | Name | When |
|-------|----------|-----------------------|---------------------------------------|---------------------|
