Final Total			

Related Areas.

Jazz Studies students have the option of electing a related area of studies. A Related Area consists of fifteen (15) credits, which may all count toward the 90-cr minimum for the degree. This requirement may be fulfilled by one of the following two options:

OPTION 1. Fifteen (15) credits of related graduate courses in one or two of the following areas of music: history, theory, music education, chamber music, or conducting. Other related areas in music must be specifically approved by the Graduate Committee at the time of approval of the Program of Studies.

OPTION 2. Fifteen (15) credits of related graduate courses in a department outside of the School of Music. The respective departments must approve all prerequisites for these courses.

At least 6 hours in the related area must be courses for graduate students only if they are part of the student's Program of Studies.

****Comprehensive Exams**
